SURABI TRUST ACTIVITIES

The core program at Surabi is Brindavan-- a home for homeless children.

Abandoned children are vulnerable to exploitation by criminals and anti-social elements. As such Surabi seeks to identify such children and offer them a place of residence where they are provided food, shelter, education, sporting activities and programs geared to help nurture them to become responsible citizens of society.

Our Children Home is recognized by Government of TN

Brindavan not only offers children education but opportunities to learn and develop skills in sports, arts, music, and academic competitions. At present, Surabi has 12 deserving children in its care in the Brindavan program.

In the past six years since its inception the Brindavan program has helped 68 children, including a seventh grade school dropout completed diploma in electrical engineering and joined for work. A few other children are in highschool, about to graduate and go on to college.

Surabi initiated the Healthy Mother program to support poor, pregnant women by offering them a 14-pulse powder to mix which provides the necessary protein, vitamins, carbohydrates needed to supplement the health of pregnant mothers. The powder is distributed free of cost on a weekly basis from the 2nd month pregnancy through child birth and the baby is 6 month old. We are distributing through primary health centers.

Monitoring & Evaluation are the two important factors of this program which helps us to maintain quality of the product as well as timely distribution to pregnant mothers. Inventory record is maintained for each mother on their periodical consumption and delivery of baby.

This product is manufactured in a hygienic environment. The powder is a mix of 14 pulse ingredients, which supplements all nutritional needs to a pregnant woman. This product is been approved by FSSAI and 100% natural without any preservatives. This powder is directly reaches the beneficiary.

SURABI TRUST ACTIVITIES

Balamitra - Breakfast Supplement

Food nutrition rolls made from powdered or ground pulses (beans, chick peas/channa, etc.) with jaggery (traditional non-centrifuged sugar) added to taste, are offered as breakfast to students. Surabi offers this nutritious food to about 700 children daily. Surabi has received positive feedback from schools that children like this food and that this program has enabled students improve their health as well as school performance.

This BALAMITRA Nutrition Breakfast Supplement program helps children to overcome their morning hunger helps them to concentrate on their studies. The indirect impact is that it improves the general health of the child, helps to improve growth in their height & weight their BMI is maintained. This is also helping in decrease of absenteeism in schools.

We are aware that many Corporation School children up to the 5th standard level do not eat breakfast and are attending schools on an empty stomach. Children deprived of breakfast cannot concentrate on their studies. Considering the importance of this, Surabi initiated the Bala Mitra (Nutrition Supplement Program) to help these children.
