BRINDAVAN

The core project of Surabi is BRINDAVAN, a home for destitute boys. Destitute children due to lack of proper education and normal homely environment are vulnerable to become burden to family, society and even some are becoming anti social elements. Surabi sharing this social responsibility in a small way by providing food, shelter, education, clothing, moral values, extra curricular activities in Brindavan. Government has permitted surabi to have a strength of 12 children.

All the inmate children of Brindavan are good in academics in which eldest boy is doing graduation, one studying engineering diploma. All children are been trained in Karate. Brindavan is also facilitating extra curricular activities in which one is good in drawing another one in cultural dance and both are been getting trained by professionals. The motive of this program is to grow them up in a homely environment and nurture them into responsible citizens of our nation.

HEALTHY MOTHER & BALA MITRA

Health is wealth. It is known that mental retardation and other physical deformities in child birth are caused due to malnutrition at the time of pregnancy. Considering this Surabi initiated this Healthy Mother program to support poor pregnant women by supplementing nutrition values with 16 pulse powder which has got all proteins, vitamins, carbohydrates that helps the child grow in a healthy manner. This powder is distributed free of cost on weekly basis from 2nd month pregnancy to the age of 2 years of baby. The positive feedback is that mothers give healthy child birth with good weight. Around 500 women are benefitted yearly.

We are aware that many corporation school children below 5th standard are not having their breakfast and are coming to schools with empty stomach. This restricting them to concentrate on their studies. Considering the importance of this Surabi started this Balamitra, (Nutrition supplement program) to these children daily in the morning. Nutrition balls made up of pulse powder with jaggery is being distributed to students. We are covering 400 children daily. We have received a positive feedback from schools that children like it well, and this program helps to improve their health as well as performance.

BALAJYOTHI

BALAJYOTHI is a career guidance program to Corporation +2 school students. We know that there are many academically bright students in Corporation schools too, but due to lack of awareness about different career & academic avenues, their success rate is very low. In order to bring awareness Surabi is conducting Career guidance program to make Corporation school students also to compete with others and make them to reach greater heights. This program is conducted regularly at Corporation schools, and more than 2000 students are benefitting through this program yearly.
